

FRACTIONAL CFO SERVICES · CONFIDENTIAL · MAY 2026

**Your business
needs
CFO-level thinking.
Not a ₹60L salary.**

Garima Agarwal CA brings boardroom-grade financial strategy, reporting, and control to growth-stage businesses — at a fraction of the cost.

Chartered Accountant

QFZP Qualified · UAE

Startups · MSMEs · Corporates

India & UAE Markets

THE PROBLEM

Growth-stage businesses are flying blind financially.

No real-time visibility

P&L is available only at year-end when the CA files returns.

Decisions are made on gut feel, not numbers.

Cash surprises

Revenue looks healthy on paper but the bank account is empty. Working capital crises catch founders off-guard.

Compliance chaos

TDS, GST, ROC, FEMA — deadlines missed, penalties paid, and no single person accountable for the full picture.

Can't afford full-time CFO

A seasoned CFO costs ₹40–80L per year in CTC. Pre-profitability businesses simply can't justify that burn.

Investor-ready gap

When a VC or PE firm asks for financial models, MIS, or data room documents — the answer is "we'll get back to you."

Cross-border complexity

India ↔ UAE structuring, FEMA compliance, VAT, transfer pricing — requires specialist knowledge most CAs don't have.

WHO YOU'RE WORKING WITH

Garima Agarwal

CA · QFZP · FRACTIONAL CFO

A Chartered Accountant with deep expertise in financial reporting, MIS design, statutory compliance, and cross-border India–UAE structuring. Garima's practice is built around one conviction: every business — at every stage — deserves CFO-grade financial leadership.

Aggregate revenue
under advisory

- **Institute of Chartered Accountants of India (ICAI)** — qualified CA with full-spectrum practice across audit, tax, and advisory
- **QFZP Qualified** — UAE Qualifying Free Zone Persons framework, enabling tax-efficient UAE structures and VAT advisory
- **India-UAE corridor specialist** — FEMA, ECB, ODI/FDI, cross-border invoicing, and dual-jurisdiction compliance
- **Multi-sector experience** — served clients across SaaS, manufacturing, trading, professional services, and real estate
- **Founder-first approach** — translates complex financials into clear, decision-ready language for non-finance leadership

Fractional CFO vs. the alternatives

Garima · Fractional CFO

Your CA / Accountant

- Files returns and handles compliance
- Historical view — tells you what happened
- No MIS, no forecasting, no strategy
- Reactive — engaged only at year-end
- Does not attend board meetings
- No ownership of financial outcomes

Fractional CFO

- Full CFO mandate — on a retainer model
- Monthly MIS, P&L, cashflow & variance analysis
- Forward-looking — plans, forecasts, scenarios
- Proactive monthly touchpoints & briefs
- Available for investor / board conversations
- Owns the financial narrative of your business

Full-time CFO

- ₹40–80L CTC + equity + perks
- 3–6 months to hire, 6+ months to ramp
- Overhead justified only at ₹50Cr+ scale
- Single-company breadth — limited outside exposure
- Long notice period if wrong hire
- Overkill for most growth-stage businesses

WHAT GARIMA DOES

Four pillars of the engagement

Monthly MIS & CFO Brief

A structured monthly package covering P&L performance, revenue vs. target variance, cost analysis, and forward-looking commentary — delivered in plain language.

P&L Report

Variance Analysis

CFO Brief PDF

KPI Dashboard

Cashflow & Working Capital

Cashflow forecasting 3–6 months out, debtor/creditor ageing management, DSO/DPO optimisation, and early warning on liquidity pressure.

13-Week Cashflow

AR Ageing

CCC Tracking

Compliance & Statutory

End-to-end compliance calendar management — GST, TDS, ROC, PF, ESI, advance tax, audit coordination — so nothing falls through the cracks.

GST / TDS

ROC Filings

Audit Liaison

India–UAE Advisory

Cross-border structuring, FEMA compliance, UAE entity setup, VAT advisory, QFZP qualification, and transfer pricing documentation for India–UAE groups.

FEMA / QFZP

HOW IT WORKS

From onboarding to ongoing financial clarity

1

Discovery call & scoping

30-minute call to understand your business model, current financial state, key pain points, and what decisions you need better data to make. Garima proposes the right pack and scope.

2

Onboarding & data setup

Garima maps your chart of accounts, connects to your accounting software (Tally, Zoho Books, QuickBooks), and sets up MIS templates calibrated to your business. Portal access is provisioned.

3

Monthly operating rhythm

By the 7th of each month: you upload the previous month's data. By the 15th: your CFO Brief, P&L, and cashflow report are ready on the portal. Monthly review call to walk through findings and actions.

4

Strategic support on demand

Board decks, investor data rooms, banker negotiations, compliance notices, new entity structuring — Garima is available throughout the month via WhatsApp and email, not just on scheduled calls.

5

Quarterly business review

Every quarter, a deeper session covering trailing 3-month performance, forward plan vs. actuals, compliance health check, and a refresh of the 12-month financial model.

YOUR UNFAIR ADVANTAGE

The client portal: your financial command centre

Every Finzzup client gets access to a private, branded portal — a live view of their business finances that no other boutique CFO practice offers.

Live KPI Dashboard

Revenue, gross margin, runway, and 6 key metrics updated every month. No spreadsheet hunting.

Monthly CFO Brief

Garima's written analysis — P&L, variance, cashflow outlook, top 3 action items — always accessible.

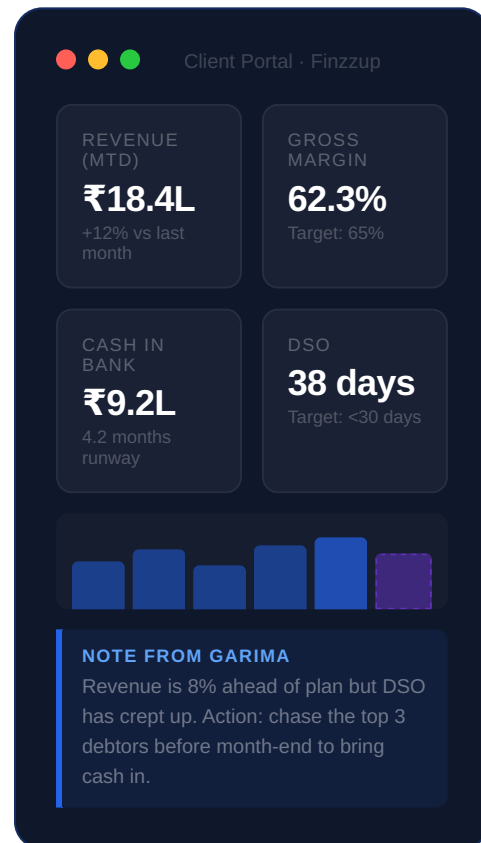

Document Vault

All financial reports, compliance filings, and board documents — organised and searchable in one place.

Action Items & Compliance Calendar

Upcoming deadlines, pending actions, and reminders — so nothing is missed.

THE RETURN

What this engagement actually delivers

30%

Reduction in DSO for clients who actively manage AR ageing with Garima's monthly coaching

2–3×

Faster fundraising timelines when financial data room is clean, current, and auditable

Zero

Compliance notices or late-filing penalties for clients on full-service engagement (target)

A ₹30,000/month engagement is **₹3.6L/year**.

A single missed GST assessment costs more. A delayed fundraising round costs 10×

This is the highest-ROI hire a growth-stage business can make.

LET'S BEGIN

Ready to bring CFO-level clarity to your business?

STEP 01

Discovery Call

30-minute session to understand your current situation, key decisions, and what good looks like

STEP 02

Scope & Proposal

Garima prepares a tailored engagement proposal within 48 hours including pack, scope, and timeline

STEP 03

Onboard & Start

3–5 day onboarding. First CFO Brief delivered within 3 weeks of engagement start
